LIGHTING UP YOUR BIG SCREEN WITH YOUR AUDIENCE AND BUDGET IN MIND

Finance

Proper equipment for your cinema. Not all auditoriums nor budgets are the same. Christie delivers economically viable solutions that never sacrifice on experience.

Easy process. Financing isn't one-size-fits-all and communication isn't a one-way street. Talk to one of our Cinema sales representatives and we'll get you started with a bespoke program tailored to your business with competitive financing rates.

Lease

We can work with you to determine the length of the lease. Lease terms range to accomplish your needs as a business. Whether you want a short term lease with higher residual value, or a longer lease that allows for a lower payment, we will work with you.

Take control of your budget. Spreading out the cost of equipment over a lease term helps with planning for the future.

Take control of the future. With each innovation comes new technology. Leasing helps you stay on top of what's next.

Rental

RealLaser Rental. Keep expenses down and brightness up with the most advanced RGB pure laser projectors in the market.

Once we've gotten past the numbers, we'll make sure to keep your investments working for you with

- › Comprehensive extended warranty
- › 24/7/365 technical support
- › Global customer service and logistics support
- › Technical newsletters with preventative maintenance tips
- › Online and in-person technician training
