

38-817001-01 INSTALLATION INSTRUCTIONS

<p>Mounting Bracket</p> 	<p>M8 x 10mm Phillips Head Screw (7ea)</p> 	<p>M8 Flat Washer (7ea)</p> 
---	---	---

1. Invert the projector and place it on a soft and flat surface.
2. Locate the mounting points found on the bottom of the chassis.
3. Align the bracket to the projector mounting points.

NOTE: Raise or remove any feet levelers or any obstacle that may prevent the bracket from properly aligning to the mounting points.

4. To install the mounting bracket to the projector, align the bracket with the mounting. Secure the seven (7) M8 x 10 (mm) Phillip screws. Do not over tighten the screw (Figure 1).

NOTE: Please refer to the PROJECTOR MOUNT BASE BOX ASSEMBLY Installation Instructions Manual for information on how the 38-817001-01 will attach to the Base Box.
